

Data Flow Architecture

1. Applying Pipe and Filter architecture to **Java Compiler**
2. Applying Pipe and Filter architecture to **C++ Compiler**
3. Applying Pipe and Filter architecture to **Dex Compiler**
4. For a class a below:

```
class Math{  
    public static int min(int a, int b){  
        return a < b ? a: b;  
    }  
}
```

Create a Pipe and Filter architecture for that class in Java.
